

Welcome

NARI

A guide for your stay with us

La Fortuna

Welcome to La Fortuna, a place to explore!

La Fortuna is located in the northern area of Costa Rica, it's a small community that has access to the Arenal Volcano National Park. The

National Park has two volcanoes, one active, the Arenal which has several hot springs spots; and an inactive one called Chato hill, this one has a beautiful lake in its crater and trails throughout the tropical jungle that will take you to the La Fortuna waterfall, which also has an amazing natural pool.

About your host

Entrepreneur and business woman. I own a spa in Grecia, which is about 2 hours away from La Fortuna, I work and manage my business full time. I love to travel, see new places, cultures and different food. I spend a lot of time taking care of my dogs and walking with them.

I like to work out and run, running half marathons in different cities; so far I've done Orlando, Chile, New York and Miami; and I want to keep adding kilometers around the world.

Thank you for choosing us, I will do everything in my power so your stay is as comfortable as possible.

I hope to see you soon.

Amanda :)
